

CCH Mobile Asia Pacific 4.0

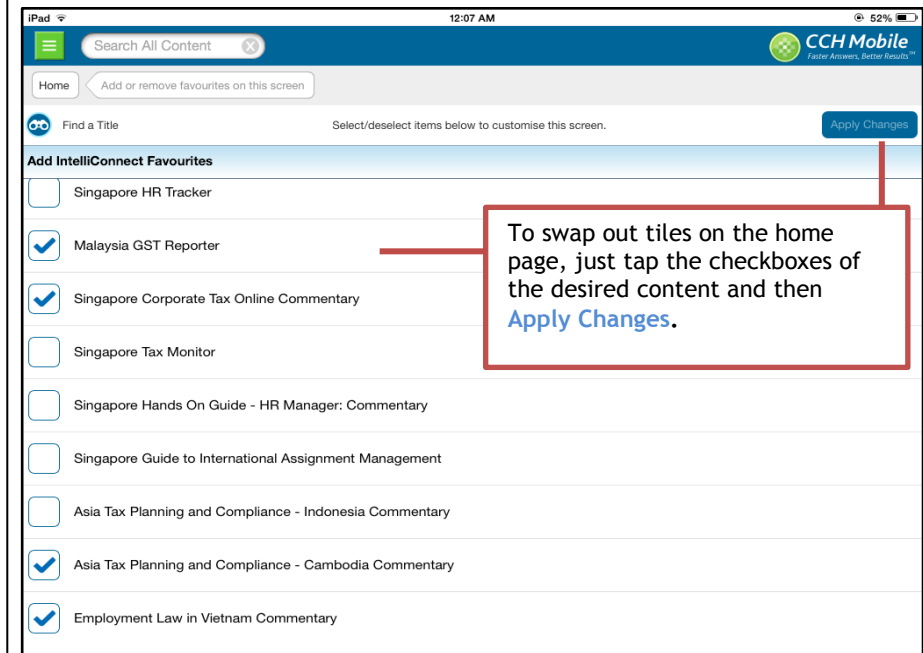

Customise your homepage to suit the way you work

Add your trackers, favourite documents and research folders to your home screen and create homepage tiles by selecting your most frequently used content to create a truly customised experience.

Select **Add a new page** to create more than one homepage and curate specific content and resources - for example you can create a page for each of your practice areas, to easily access the information you need.

The tiled design makes it easy to find and search the content you need quickly.

To swap out tiles on the home page, just tap the checkboxes of the desired content and then **Apply Changes**.

CCH Mobile Asia Pacific 4.0

Select the green menu button to access your recent history, News & Alerts, Research Folders, Document Notes and your customised homepages.

Favourites: select your favourite content saved in IntelliConnect for quick access from the homepage, now including individual pages of commentary.

CCH Mobile is a free download for all current IntelliConnect subscribers.
